WHAT IS ACCESS SERVICES

by Alicia “Kestrell” Verlager - Access Services Leader
- access@arisia.org

Arisia is dedicated to promoting a diverse and inclusive community. This includes providing accommodations and services to help individuals to participate in Arisia.

As in the past, Braille and large print programs are available at the Information Desk.

This year Arisia has added various services and one major event promoting access, and these services are overseen by Access Services, a division of Member Services.

What's new:

The Access Services Web page <http://2010.arisia.org/Access>, which includes information and announcements, including info about disabled parking.

An accessible tour of the art show, including description and the opportunity to touch some of

the art. Some of the artists, including the Artist GOH and Fan GOH, will be present. We will meet in the art show on day from noon to one. Cotton gloves will be provided. All are welcome, but priority is given to people with sensory impairments.

Improved signage. All over Arisia there are now more signs helping guide you to your destination.

FM transmission of specified events for people with hearing impairments. You can bring your own device or borrow one of two receivers from the convention. Refer to the program to find which events are being transmitted.

Accessible seating for people with disabilities, including hearing impaired people who lip read. Sign up for this at the Information Desk.

We realize that finding seating at the Events or the Masquerade can be frustrating whether one has a disability or not, but please save this service for people who truly need it in order to attend the Masquerade at all.

VOLUNTEERS

A Come one come all, to volunteer at Arisia. Arisia is a volunteer run organization and needs your help!
